

A New Change

By Logan Armstrong

A person that has made a big impact in my life is Finley. Finley has been a funny, persevering, and kind person. It all started in first grade when he came as a new student. Finley wasn't shy and was funny. Then we just clicked! He has made a big impact on my life because he just can make you smile with his funny faces, and his funny made up people he's been able to think of. He showed me that you can change the world just by making someone smile, and he has been a fun person to have around. Finley has been able to show me how to stay strong even when it's tough because one day he showed up with a cast. He had a broken arm and yet, he found a way to remain positive and not complain about his arm. Even though it must've been really tough, he showed perseverance. He continued to show me you can get through hard things. Finley also has shown me to be kind to everybody because I have never seen him argue with someone. He bonds with people and shows you should be kind to everyone. He knows making people happy will improve their lives and will teach them to just go with the flow. We've had a nice time together and he always will be funny at the right moment when I need to smile by making a funny face, a funny voice or just by being kind. Finley just shows the world to be kind and to stay strong even when it's hard. Sometimes giving people a laugh really helps, the world sometimes just needs to smile. That is one of the best things people should know, and because he's taught me that I am the person I am today.
